

Kwikshine

Description

Protective and decorative dressing for linoleum, vinyl, plastic rubber, sealed cork, concrete, slasto, terrazzo and asphalt flooring systems.

Benefits

Armour plated, non-slip, flexible, scuff and stain resistant lustrous sheen.

Preparation

Remove soils and old emulsion polish with Wax-Off diluted 1-10 with water using a coarse pad on an industrial floor machine or by scrubbing with a stiff brush. Thoroughly rinse with fresh water and allow to dry.

Caution

Do not use solvent or ammoniated detergents for routine maintenance cleaning.

Spread Rate

Approximately 70 m² per 5 litres.

Application

Sparingly apply an even coat of Kwikshine with a soft applicator or mop. After 20 minutes apply a second coat.

Maintenance

Occasionally mop the floor with a solution of 1 part Kwikshine to 10 parts water to replenish sheen. Sweep off dust and mop with a solution of Dishy diluted 1-50 with water or if a pleasant lingering perfume is desired use Opine diluted 1-50 parts water.
