

Zapex R

Description

Zapex R is a liquid cold cleaner combining solvents, surfactants, emulsifiers, couplers and inhibitors. Zapex R is designed for the fast, safe and easy removal of road film, grease, oil, tar, asphalt and wax coatings from machines, engines, chassis, new vehicles and concrete floors.

Uses

Zapex R can be used for long periods in a cleaning tank for small parts washing. The solution can also be applied by brush, rag or coarse spray.

Zapex R supplied ready for use to save time and prevent wastage.

Heavily soiled surfaces both painted and unpainted can be safely and effectively cleaned with Zapex R by using a dip, spray, wipe, brush or steam cleaning type of operation.

For steam cleaning or high-pressure spray systems, Zapex R added to the water at 2-5% will greatly assist soil removal.

Technical Properties

Mac rating over 500ppm

Flash point 51 degrees C.

- Free rinsing and emulsifiable with water.
- Safe on all metals and painted surfaces.
- Will not affect electrical wiring.
