

Conrep Bondex

Bonding Agent / Reinforcement Primer

PRODUCT DATA SHEET

Description

One component, cementitious polymer modified bonding agent / primer.

Uses

A bonding agent for cementitious repair mortars. Corrosion protection for steel reinforcement.

Advantages

- Easy to mix with water.
- User friendly
- Imparts grab for patching mortars
- Good water and chloride barrier
- High bond strength

Preparation

Surfaces to be clean, sound and free from contaminants. All repair areas should be defined by a 10mm saw cut to avoid feather edging. Pre-soak prepared area with clean water, but avoid ponding. All steel should be sand blasted to remove all contaminants such as rust.

Application

Prior to the application of a repair mortar, *Conrep Super Plaster*, *Conrep Super Screed* or *Conrep Mortar 50* prime with *Conrep Bondex* using a stiff bristle brush. Work in well to ensure complete wetting of concrete.

Precautions

- Wear dust mask.
- Wear protective gloves.
- Avoid prolonged skin contact.
- *Conrep Bondex* is non toxic and can be washed off with fresh water.

Health & Safety

Some of the components of this product may be hazardous during mixing and application. Please consult the relevant Health & Safety Data Sheet available from Flowcrete on request and sent with each delivery.

Properties

Number of Components:	1
Mixing Ratio:	±5ℓ water / 25kg
Yield	14ℓ
Coverage	± 1m ² / ℓ
Colour:	Grey
Shelf Life	6 months
Cleaner:	Water

Important Note

Flowcrete's products are guaranteed against defective materials and manufacture and are sold subject to its standard Terms and Conditions of Sale, copies of which can be obtained on request.
